FLOOD & WATER DAMAGE

Being hit by water damage is every business or homeowners worst nightmare. As the most common emergency issue in the United Kingdom, flooding and water leak damage can affect many commercial and residential premises. If your business or home is affected Assure Services can be on-hand to assist at short notice, with our emergency flood and water damage restoration specialists.

The Flood & Water Damage Services we provide include:

- 24 hour response guarantee
- Home and business refurbishment including buildings & contents
- Containment & removal of flood water
- Drying of buildings including sanitising of fixtures, floorings and furnishings
- Waste disposal in a controlled and environmental manner
- Final deep clean ready for builders and decorators

Whatever it is that has caused the damage, you need to get it professionally cleaned up as soon as possible to prevent further problems. If not properly treated, water damage can lead to mould, mildew, rot, pests, odour and structural damage, all of which can be avoided by a timely cleanup. Water soaks into a building's fabric and enters the smallest gaps, making it very difficult to dry out naturally.

In an emergency, Assure Services are available on call 24/7 and we aim to be with you within 2 hours to make sure that we're able to rush to your assistance without the slightest delay. As a professional emergency cleanup company ideally located in Antrim we know that time is of the essence so contact us today for free estimates.

For more information on the Flood & Water Damage cleaning services we provide, please give us a call or email us to see how we can help using the details below.
