If your business or home has fallen victim to a fire then your premises will no doubt have smoke damage that requires professional smoke cleaning services. We are available 24 hours a day, 7 days a week to take your call in the event of an emergency.

The Smoke Damage Services we provide include:

- 24 hour response guarantee
- Home and business refurbishment including buildings & contents
- Containment & removal of fire extinction water
- Drying of buildings including sanitising of fixtures, floorings and furnishings
- Waste disposal in a controlled and environmental manner
- Odour removal and disinfection programme
- Final deep clean ready for builders and decorators

Any property and its contents that have been damaged by fire and smoke will be subject to toxins that need cleaning not just for cosmetic reasons, but also for health reasons as smoke particles contain many chemicals that could cause lung irritation or worse.

When recovering from a fire you are left with soot and smoke damage which leaves a lingering burnt smell that needs cleaning and removing by professionals. Due to the unpredictable nature of soot and smoke damage we use different methods to completely eradicate the smell. These methods include air blasting, pressure washing, steam cleaning, dry soot sponging and to eliminate the smoke odour we carry out a thermal fogging treatment to the affected rooms which acts to bind to the smoke particles and render them odourless.

For more information on the Smoke Damage cleaning services we provide, please give us a call or email us to see how we can help using the details below.
