DUCT CLEANING EQUIPMENT

Our range of innovative duct cleaning machines assist you in cleaning grease more efficiently.

The challenges of cleaning ductwork to TR-19 just got easier with the HEY range of duct cleaning machines.

The bucket and scraper have long been the tools of choice for the kitchen duct cleaner, but the need for efficiency and the ever-increasing demands from TR-19 necessitate mechanical cleaning in addition to the humble scraper and bucket.

Previously inaccessible ductwork and risers can now be quickly and effectively cleaned. Canopies and filters are cleaned in a fraction of the time compared to previous cleans.

Peace of mind is guaranteed with HEY's two year parts and labour warranty, plus local based technical help.
