Training Academy

Assure Services NI Ltd is now delivering BESA short courses

Grease Hygiene Technician (GHT)

WHO IS IT FOR?

This course is aimed at those who are working in a supervisory or managerial role in the building engineering services grease extract hygiene industry.

COURSE OVERVIEW

The course consists of both theory and practical activities and delegates will be assessed across both.

The theory and practical exercises include:-

Safe working practices

Supervision

Working sustainably

Planning and preparing the work location

The principles of kitchen grease extract systems and associated components

Cleaning of kitchen grease extract systems and associated components

Pre and post clean testing and reporting

The delegate will be trained and assessed on all of the above. They will be expected to plan and prepare the work location as well as provide supervision. They must insert access panels and clean kitchen grease extract systems and associated components. They must select the correct materials and methods and techniques to

industry recognised standards as well as carry out minor on-site modifications. They must understand and carry out pre & post clean testing and reporting as set out in TR/19.

For more information on additional courses please give us a call or email us to see how we can help using the details below.
